

Venetron[®]

Derived from a patented, purified, powdered extract of *Apocynum venetum*, Venetron[®] is a dietary supplement for sleep and mood support that has great potential to vastly improve health outcomes. Venetron[®] is believed to exert its effects by reducing secretion of Chromogranin A (a stress marker)¹. Additionally, the extract has a synergistic effect with GABA, whose main function is to calm brain excitation² and increases serotonin levels, thereby boosting mood³.

Reduces depressive symptoms

Improves insomnia

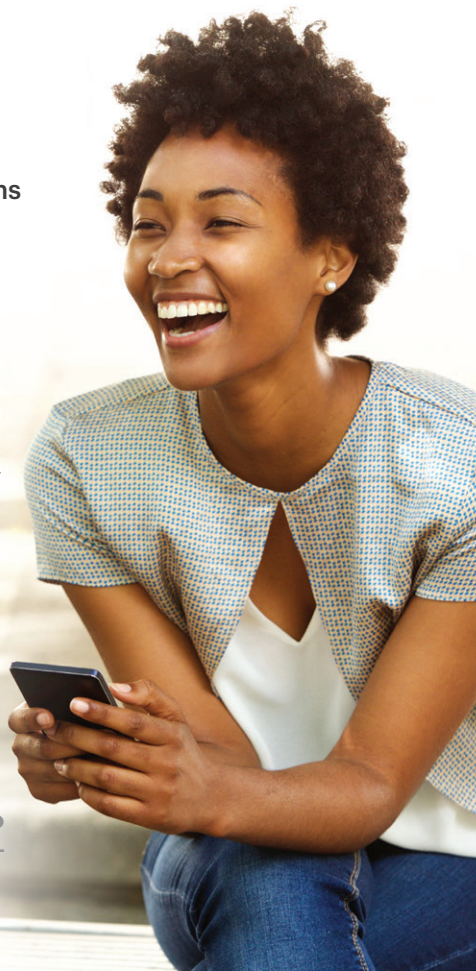

Relief from stress and anxiety

60
VegiCaps

100%
NATURAL

Scientifically proven

A randomised double-blind study was conducted in 39 subjects with depressive symptoms to assess the effects of supplementation with Venetron®⁴

Study results

50% of individuals had a decrease of 50% (or greater) of the symptoms associated with depression.

Some individuals showed a 20% increase in serotonin levels.

Dosage

Take one to two 25mg Venetron® vegicaps daily.

Capsules can be taken any time during the day.
